Ring Size Guide

Find your fit. No guesswork. No regrets.

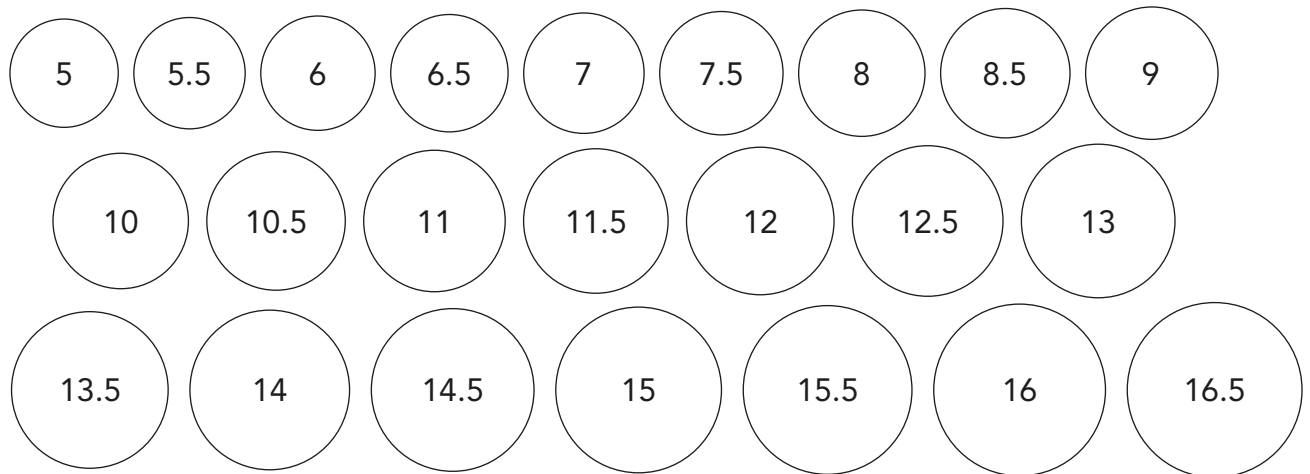

The perfect ring deserves the perfect fit. Use the guide below to measure your size at home, or book an appointment for a precise fitting at **PALMA**.

Before using the ruler to find your fit, make sure this guide is printed on A4 paper size (21.0 cm × 29.7 cm) and scaled to 100%. To Check the accuracy of your printout, position a credit card on the line below. The scale is correct if the credit card and line length match.

Method 01 — Measure a ring you already own

Choose a ring that fits the intended finger perfectly. Place it over the circles below and match the inside edge of your ring with the closest circle.

Method 02 — Measure your finger

1. Cut a thin strip of paper
2. Wrap it around your finger
3. Mark where it overlaps
4. Measure the length in millimeters
5. Match it to the chart below

Carefully cut along the outline of the sizer. Make a small slit on the line on the left end of the sizer.

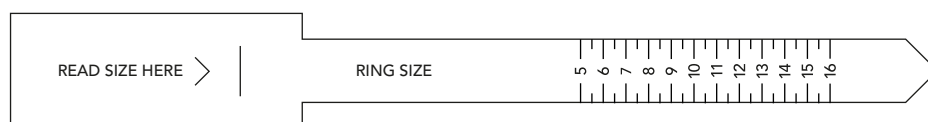

Wrap the sizer around the intended finger with the numbers facing out.

Move the sizer to the larger part of the finger and pull tightly. The sizer must fit snugly to produce an accurate size.

The number that lines up with the slit represents the ring size for that finger.

Before you measure

- Measure at the end of the day
- Avoid measuring when your hands are cold
- If you're between sizes, go bigger
- Wider bands may require half a size up

Still unsure?

For engagement rings, wedding bands, or bespoke pieces, we strongly recommend booking a private sizing appointment.
